

Sunshine Act Project: Commissioner/Board Member Survey

This survey is being conducted under the auspices of the Administrative Conference of the United States (ACUS). It seeks to gain information about the impact of the Government in the Sunshine Act (5 U.S.C. 552b) on the function and decision-making process of government commissions and boards.

CONFIDENTIALITY:

Unless you request otherwise, your responses to this survey will be treated as public information. If you request confidentiality, any of your data used in a report will be presented only aggregated with other data, and any of your narrative responses that appear will not show any attribution to you. Any requests by the public for underlying data and responses will be assessed in light of all applicable FOIA exemptions which protect the interagency deliberative process, privacy rights, and trade secrets.

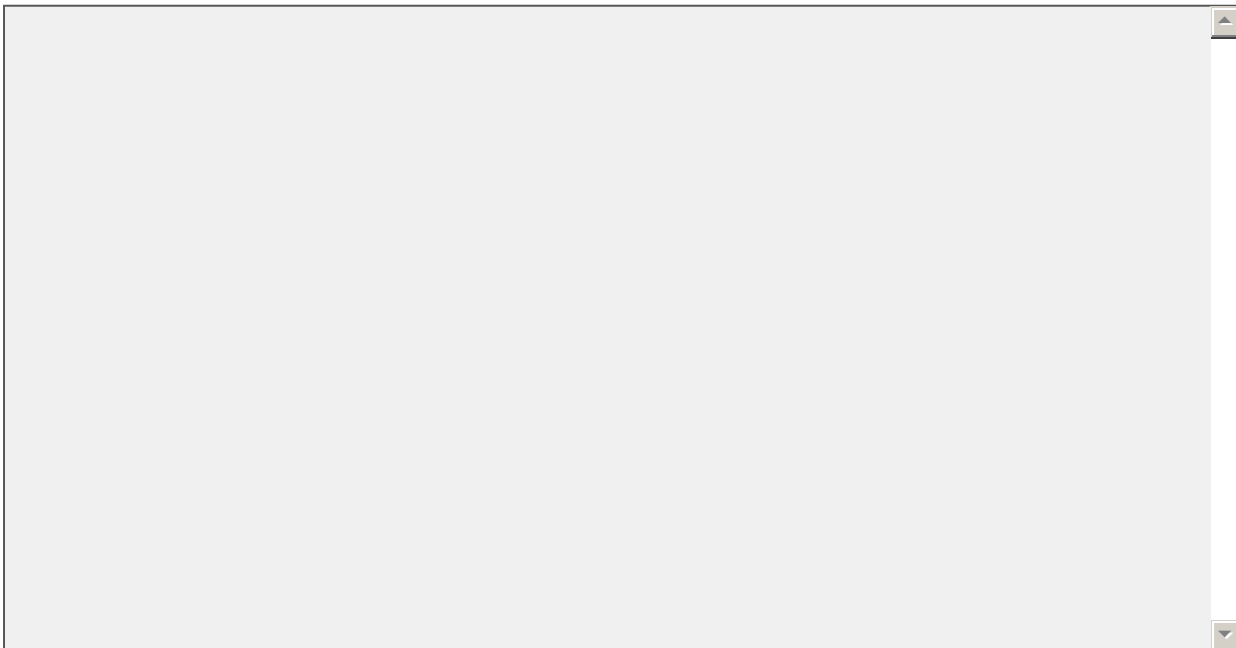

ASSISTANCE OF OTHERS IN ANSWERING SURVEY:

This survey seeks your own perspective, not any "institutional" position of your agency. Preferably you should answer the survey without consulting staff members. If you consult with staff, please note that you did so at the end of the survey.

DEFINITION:

In this survey, an open meeting is open to the public (or the open portion of a partially open/partially closed meeting). A closed meeting is a meeting of a quorum of the commission or board that is closed pursuant to the Sunshine Act exemptions (or the closed portion of a partially open/partially closed meeting).

Please provide your name and identify the Commission/Board on which you serve. (As noted above, if you opt for confidentiality at the end of the survey your answers will not be attributed to you in any ACUS or ACUS consultant's report).

Notational Voting (Questions 11-14)

Background: Notational voting, also known as "sequential" or "seriatim" voting, involves circulation of an action item and supporting materials to each Commissioner/Board Member for him or her to vote on the matter.

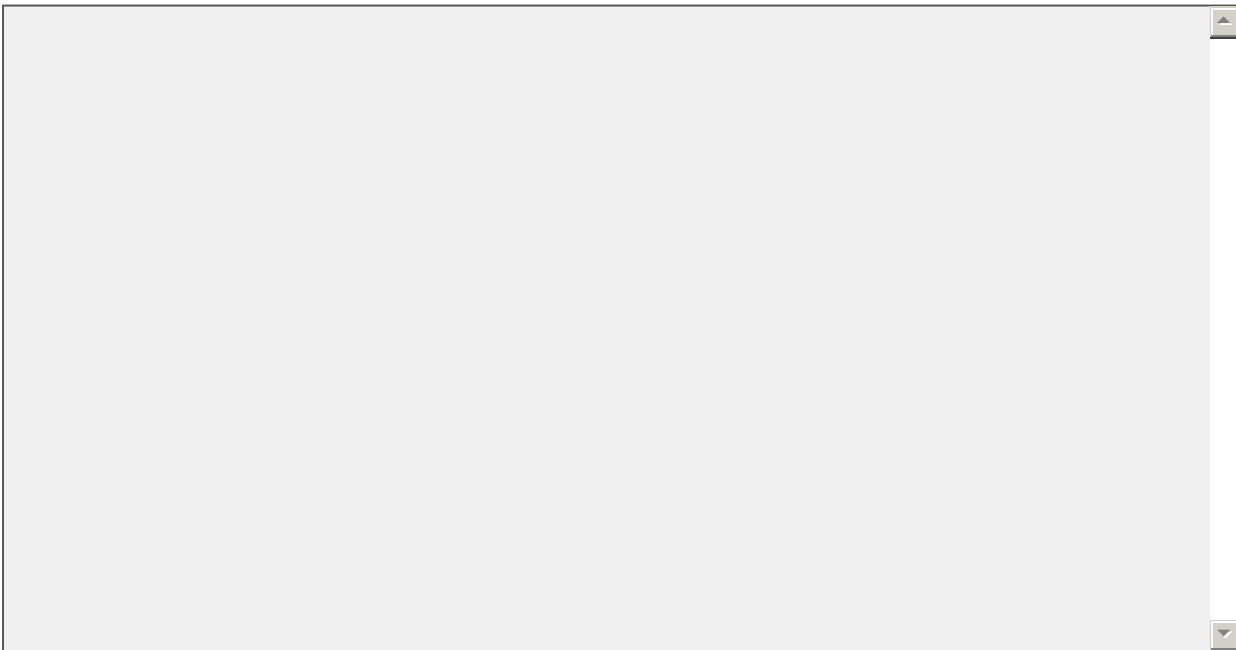

11. Does your Commission/Board engage in notational voting?

- Yes
- No (If your answer is "No," please skip to question 15.)

12. How frequently is a decision made by notational vote without a follow-up meeting when there is disagreement on the Commission/Board (as evidenced by conflicting notational votes, i.e. one or more yeas and one or more nays)?

- Almost always
- Frequently
- Infrequently
- Almost never

If you would like to explain your answer, you may do so below.

13. How frequently is the decision made by notational vote without a follow up meeting on novel matters of policy or novel issues of fact or law?

- Almost always

If you would like to explain your answer, you may do so below.

14. Do you believe notational voting is used too frequently or not frequently enough by your Commission/Board?

- Too frequently
- Just about the right amount
- Not frequently enough

If your answer is "too frequently" or "not frequently enough," please explain.

Brainstorming Sessions (Questions 15-17)

Background: Some have advocated that Commissions/Boards have sessions that are not focused on a particular issue before the board, but that are general brainstorming sessions, either (1) to come up with lines of inquiry or options for further consideration, or (2) to give the Commission/Board an opportunity to assess trends or discuss how the agency is performing in general. Please answer the questions below regarding brainstorming sessions.

15. Does your Commission/Board have brainstorming sessions such as those described above?

- Yes
- No (If your answer is "No," please skip to Question 17.)

16. If you answered "yes" to the previous question, are the brainstorming sessions held as open Sunshine Act meetings?

- Almost always unless an exemption applies
- Sometimes
- Never

17. Regardless of whether your Commission/Board has brainstorming sessions, how important do you feel it is to have such sessions for the following purposes:

	Very important	Somewhat important	Not important
Development of lines of inquiry or options for further consideration	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Assessment of trends	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Discussions on the agency's performance	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

If you answered "very important" or "somewhat important" to any of the choices above, please provide one or two examples of subjects regarding which such brainstorming sessions would be particularly fruitful.

Briefings (Questions 18-20)

Background: Some have thought that being able to have closed staff briefings on general matters (such as basic concepts, legal doctrines, or trends relevant to the agency's responsibilities) is significant. Answer the questions below regarding staff briefings.

18. Does your Commission/Board have either open or closed meetings to receive briefings?

- Yes
- No (If your answer is "No," please skip to Question 21.)

19. If yes, are the meetings to receive briefings open to the public?

- All are
- Most are
- The number of closed and open meetings are about equal
- Most are not
- None are

20. Some Commissions/Boards have closed briefings that they do not consider subject to the Sunshine Act. (Such sessions might be referred to as "gatherings"). If your Commission/Board has such closed briefings, how easy or difficult is it for you to determine which comments or questions are consistent with the principle that Commissioners/Board Members cannot "deliberate" in closed briefing sessions (unless the meeting has been closed pursuant to an express exemption in the Sunshine Act)?

- Very easy
- Easy
- Difficult
- Very difficult
- Not applicable, I am unaware of such a principle.

I am following Commission/Board custom of not speaking extensively at open meetings.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

- Worse

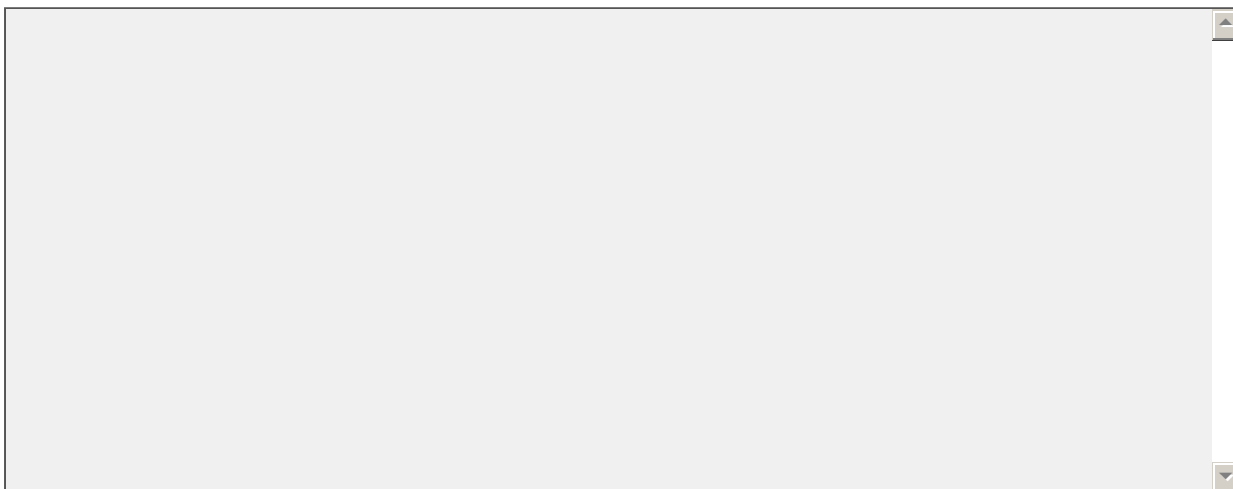

If you would like to explain, you may do so here:

25. Do you think the Sunshine Act should be modified?

- Yes

If you request confidentiality, any of your data used in a report will be presented only aggregated with other data, and any of your narrative responses that appear will not show any attribution to you. Any requests by the public for underlying data and responses will be assessed in light of all applicable FOIA exemptions which protect the interagency deliberative process, privacy rights, and trade secrets.

Pitch for refraining from invoking confidentiality: reports that rely on comments made anonymously have less credibility than those which rely on sources that are willing to have their comments attributed.
